Welcome

Corporate golf days are a powerful tool in building and enhancing business relationships. For the host it is essential that every detail is catered to in order to create the right impression and this is never more important than when choosing gifts or prizes.

Titleist has long been associated with the game's best players, so what better way of treating your most valued clients than by providing them with high quality products from golf's symbol of excellence featuring your company's logo?

Customised golf balls are obviously an essential starting point, however corporate golf day buyers now have access to an extensive selection of customisable products including bags, headwear, gloves, outerwear and accessories. With the innovative FootJoy MyJoys collection you can even create customised golf shoes.

Competitive lead times and modest minimum order levels combined with the very best quality printing and embroidery services make the corporate crested collection from Titleist, FootJoy and Cobra and extremely desirable addition to any corporate golf day.

Titleist®

FJ FOOTJOY

cobra®

We apply the same high standards to our golf ball printing operations as we do to the design and manufacture of our famous golf balls.

Titleist & Pinnacle Golf Balls

We pride ourselves on our logo ball printing facilities based at our European Headquarters in St. Ives and in Holland, Sweden and South Africa. Each process involved in reproducing your logo or message accurately is undertaken using the latest procedures and technology. With experienced staff, stringent quality control procedures, reliable and fast lead times, you won't get a better service from anybody else in the industry.

Logo Printing Balls

We are proud of our logo ball printing skills and are confident we can reproduce any logo. You can choose to put your logo on any model from the Titleist and Pinnacle golf ball family to ensure you and your customers have the ball to suit your needs and skills.

Artwork

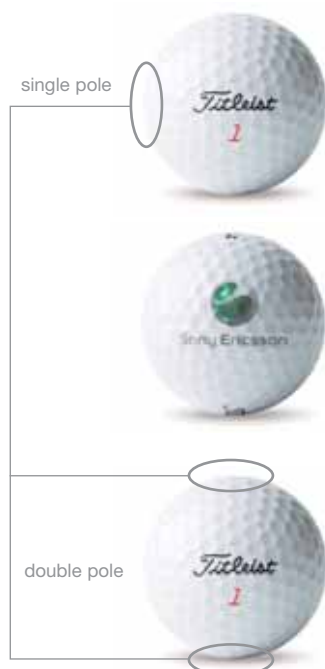

Artwork can be sent in the following ways - please read carefully before sending artwork. The image can be supplied on disk (as an Illustrator EPS file or as a TIFF, JPEG or BMP. Please ensure the image is 300-600 dpi), bromide, by e-mail or from a business card or letterhead, but not a fax.

Colours

Up to 5 colours can be printed onto any ball plus we can now offer a process of graduated shading, providing the option, for example, of reproducing photos rather than just solid colour logos. For logo printed golf balls there is a small one-off origination charge and a modest minimum order quantity requirement.

So from the simplest logo to the most detailed, we are confident that we can reproduce your logo to the highest standard possible on any of our golf balls.

MyJoys® is a program from FootJoy® that allows you to feature your corporate logo and corporate colours on a pair of DryJoys® or Contour Series® golf shoes.

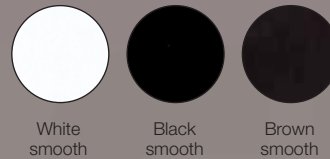

A custom pair of MyJoys® can be completed in these easy steps:

- 1) **Select shoe style and gender**
- 2) **Select size and width**
- 3) **Select colour combination**
- 4) **Personalise one or both shoes, with your corporate logo or up to 6 characters.**

For more information on MyJoys® visit footjoy.co.uk/myjoys
